Customer Reviews

If you are looking for some variety with your burgers, Rachel Ray has the book for you. After a brief introduction to burgers as well as her preferred meat blend, it is on to the recipes in this book published last June. While there are recipes for outside grilling, Rachel Ray thinks of burgers as a year around deal. The Book Of Burger isn't just about burgers, despite the title. The book opens with a section titled "Burgers" made of beef, veal, pork, chicken, veggies and other things. The section starts with "Big Beef Burgers with Crunchy Sour Cream Onion Rings (pages 4-6). This one serves four and features onion rings on top of a hamburger topped off with lettuce and red ranch dressing. "Chili Mac 'N' Cheese Burgers" (pages 12-13), "Bloody Mary Cheeseburgers" (page 31), as well as "The Ultimate Salami Burgers" (page 52-53) among others are in this section. Unfortunately, there is no nutritional information on the recipes as well as very few pictures. Tips, suggestions, and information in small text notes with or without small icons is present and plentiful. The Book Of Burger is billed as an "Atria Smart Book" and features active links to information online as well as images that can be scanned by smart phones to release still more information. The active links were not explored and this reviewer does not have a smart phone so those images were not explored either. The next section begins on page 128 and is "Sliders" primarily featuring, beef and pork. There is one recipe using lamb as well as several recipes for chicken and turkey sliders and two featuring seafood.
