The Everything Vegetarian Slow Cooker Cookbook: Includes Tofu Noodle Soup, Fajita Chili, Chipotle Black Bean Salad, Mediterranean Chickpeas, Hot Fudge Fondue ...and Hundreds More! (Everything (Cooking))

Synopsis

Who wouldn't want a scrumptious, healthy, all-veggie meal that's ready to eat as soon as you walk in the door? In today's hustle-and-bustle world, it can be difficult to find the time to create meatless dishes that don't take hours to prepare. But with this cookbook, you'll find simple, satisfying recipes for hundreds of meals, including: Spicy Seitan Buffalo Strips, Vegan Spinach and Artichoke Dip, Citrusy Beets, Slow-Roasted Garlic and Tomato Sauce, Peanut Butter Cake. Complete with an array of vegan options and substitutions, this versatile cookbook has everything you need to create healthy, delicious meals--without spending the day in the kitchen!

Customer Reviews

This is a great cookbook. The recipes are simple and do not defeat the point of cooking with a slow cooker -- and they do not demand such a long list of ingredients that I can't afford to cook the recipes and pay my mortgage in the same week. The food tastes great and is easy to prepare. What more could a person ask for?

I love the variety in this book and the recipes I have tried so far. I didn't want to have to buy a huge grocery list of items just to make some new recipes, so I was really happy that there are a lot in this book that I already have most of the items in my pantry, or are common groceries I regularly purchase. I have a smaller slow cooker, and all the recipes seem to be for larger ones. I just cut down the ingredients, but I wish it gave alternate cooking times and temps for smaller units. Overall,

I think it was a great purchase and I look forward to trying more of the recipes.

The thing I don't like about this cookbook is that the bean recipes call for canned beans, which seems a bit pointless. Personally, I got a slow cooker to do things like that myself, and I was hoping for a cook book which provides the amount of water to use and cook times for beans and legumes. Still, it was inexpensive, so not too much of an investment.

YUM! Just one word for the recipes in this book. I'm a huge fan of my slow cooker and couldn't wrap my mind around vegetarian dishes coming from it. I've always done soups, etc. but this book has opened my mind to a whole new way of cooking. Thanks!!

I have made at least 2/3rds of this cook book. It has been great and reliable. I have made adjustments to the recipes but they are based on my personal preference rather than a shortcoming of the recipe. Recommend.

Most of the entree recipes in this cookbook are flavorful, easy to prepare and satisfying. However the cookbook as a whole just isn't one of my favorites--it doesn't have enough variety or "stand-out" recipes and the dessert section is sort of a joke. In the end, though, it's a good addition to any vegetarian cookbook collection, if only to have the Crock-Pot option always there on the shelf.

I just got this book a few days ago. So far have made 2 of the recipes. The first one " " mock chicken and rice " was ok, but the rice came out very gummy, and stuck together. The second one I tried today was " mock meatball stew". It came out very good! There are many more I want to try. If I do another with rice, I may cook separate and add the last hour of cooking time like another book says to do. Additional note I have now made several more recipes from this cookbook. Tonight I did the brown rice and vegetables. It again the rice came out gummy, like eating oatmeal. The taste was good, but I won't make again. The fajita Chile was good.

I bought this as a gift for my vegetarian son. He is enjoying the various recipes and says that he likes how easy they are once he has the correct ingredients. It also is teaching him some things about cooking that he didn't know, so I'm happy about that. I told him that he had to make me something out of it, so I'm looking forward to that!
