Customer Reviews

I'll be honest. I was a little skeptical about trusting this program at first. I got it because I mostly do prevailing wage projects and get killed when I try to bid residential projects. I got this one on sale to try it out "I didn't want to spend serious money on something I may never use". I was impressed! I first changed some of the labor prices and went head to head with some of my other bids and it was right there! I want to take it out on a residential call and shoot the customer a bid I'd stand by right there.
