These sauces are delectable and so versatile that I feel like I got my moneyâ™s worth with the first one. The Chinese red sauce is so delicious and goes great with ribs. It was the most flavorful rib Iâ™ve ever eaten. The sweet and spicy flavors from ginger, honey, and red pepper flakes. Perfect. The cashew gravy was completely vegan and perfect for a dinner party where vegans would be present. But then the apple gravy was perfect with pork chops, just as the author suggested. I canâ™t wait to start mixing and matching the recipes. This book was definitely worth a few bucks

I absolutely loved this book. Unfortunately, the only sauces I originally knew how to make were Alfredo sauce and country gravy with flour, so this book has changed the GAME in my kitchen.

There are more than 5 BBQ sauce recipes, and I've only tried the "Southern Charm" style of those thus far, but the rest sound so flavorful and different, I can't wait to try them all. The pecan pineapple vinaigrette was perfect on salads I made with dried cherries and grapes with grilled chicken. There's even a list of dips and flavored mayonnaise in here. I got my money's worth with my first two recipes and now I just have to figure out which is next.

This cookbook was perfect for Memorial Day. We had a cookout with chicken and burgers and my chicken was so tasty with these new sauces that don't just come from a bottle but are homemade. They taste great and are so easy to make.

Got this just in time for Memorial Day weekend to step up my rib game. The BBQ sauce was delicious and I couldn't be happier with how my ribs came out. They were the talk of the party. So delicious.

Not what I wanted.
