Customer Reviews

I collect 50s kitchenware but I don't really collect Holt Howard however I started acquiring a few pieces here and there so I figured I could learn more about this group. Maybe my expectations were low I'm not sure but this book WOWed me for the price! Not only did it have Holt Howard stuff, and is VERY thorough might I add, but to my complete surprise it had all other types of 50s-60s kitchenware collectibles: PY/Miyao, DeForest of California, Davar, Lefton, etc ...all the stuff I collect! Also it's got a TON of clear, color accurate pictures, prices and most items have the dimensions. This sounds like a given but many of the books out there either don't give you dimensions, prices or many good "colored" pictures. You can tell this book was written by a collector giving you the information a collector would want to know. It gets an A+++ in my book :)

I think this book is wonderful! Great Graphics and loads of information! I love all the knock-offs which really helps in finding out if you have the real deal or not! If you collect Holt Howard or even the knock-offs you will really enjoy this book!

Great book for both the collector and dealer of Holt Howard ceramic items from the past. Lots of color photos along with current values make this book a must have for your reference guide collection. Very well put together book. I highly recommend it. You will be pleased too. Thank you.

Very helpful in verifying whether the condiment jar you want to bid on eBay has the correct spoon! Before I had this book, I made many purchase mistakes of mismatched jars, sellers are not always honest or don't know themselves they are selling mismatches, this book is a huge help in protecting my purchases & knowing what I'm really getting. Much more than just Holt Howard, also Davar (Pixies similar to HH), Lefton, Lipper Mann (Flower Girls), Jolly Girls, Dolly Girls, Napco, and many other companies that produced Holt Howard 'Wanna Bees'! Also covers HH 2nd generation. There is history on each company, along with gorgeous full color pictures with annotations listing the price and name and any info known about each item, throughout the whole book. I have seen on eBay a few items that were not in this book, but the set that they belong to were in the book. If you collect vintage kitchenware, this book is a definite MUST HAVE guide!!

The book is very good on Holt Howard Collectibles & those that have copied H.H. Price guide is good/fair & gives information so one does not get ripped off on a H.H. want-to-be, or even a Holt Howard item that has a miss-matched top/bottom. Highly recommended.

Very detailed. Just the information I was looking for. Great for beginning collectors with lots of important information. Wish it was a little more detailed with the Christmas collectibles.

beautiful displays in this book.. very informative... i find this book very helpful when learning about holt collectibles.. the pictures are colorful and very helpful.. thank you for such a wonderful book..

Great pictures and a lot of useful information. Would recommend this to anyone who likes to collect or is thinking of starting a collection of Holt Howard.
