## Customer Reviews

I have to admit that I was hoping for the cheap fare that we usually get from the Jersey Shore and the stuff that would be fun for the kids. This isn't that type of cookbook. While it is an interesting cookbook with one famous recipe from each of several major restaurants, it doesn't meet my need for the food that I was craving. The best part was that it tells the story of how the owner or the chef came and got set up.
