North African Textiles

Synopsis

North African Textiles celebrates a living tradition whose dynamism is apparent in the continued flourishing of old techniques and styles, whilst readily adapting to new materials and markets. The authors provide a much needed survey of a neglected subject and offer valuable new insights into the significance of textiles in the understanding of North African cultural tradition as a whole.

Customer Reviews

Very detailed research of an unusual subject . Every collector of ethnic adornment will appreciate this book. Great photos and detail. Lots of well researched information on the topic as well. Africa has so little documented for lovers of ethnic textiles.
