This book is not only a great guide into the essentials of slow cooking but has a variety of different recipes for not only the typical slow cooker entrees for lunch and dinner but many delicious recipes for breakfast as well, I can't wait to try out tall of them. Also an excellent guide in food preservation for anyone shopping for two on a budget. Could have more pictures though but it doesn't take away from any information presented.

Wanting to eat delicious foods at the same time having a diet can be achieved with this recipe cookbook. My personal favorite is the sangria which is definitely a must try. The combination of ingredients provides an outstanding mixture of flavors. Although I have to comment on the spacing in which it is too much where it could have utilized more on additional recipes. Over all this book is indeed worth using.

Slow cooking has recently grown being one of my favorite pastimes. It's rewarding after a bit of a

work and wait, when dinner time arrives. This recipe book is very simplistic and clear, stating all the necessary info such as cooking times. A slow cooker recipes and guide to use the cooker in one book. Definitely looking forward for tomorrow when I get to do some slow cooking with my family.

I want to collect recipes on slow cooking because it is convenient for me as a mother at home. I don't have to worry much if it was cooked or already burnt. By grabbing this book, I checked if it is worth it with all the recipes here. And yeah, I was not mistaken. All the foods here are so great specially with these greek frittata, fruit cobbler and artichoke-spinach dip
