Customer Reviews

This book brings me back to my days of girl guide—I have lost my touch with some of the things I have learned back then but I remember doing knots with my rope and making a shelter in the wood. Some things can be lost if you don't practice regularly and making knots is something that I recently took over again because of our boat. Having this little book will be very helpful for when we go boating or rving. You never know when you will need a useful book like this one! The book is divided into nine parts. Rope and Knot Basics — anatomy and taxonomy, working terms and basic shapes, types of knots, finishing knits, untying knots, buying rope, rope construction and materials, natural versus synthetic fibers, caring for rope, coiling for storage, alpine coil, fireman's coil, wrapped and reef-knotted coil, butterfly coil. Foundation Knots — overhand knot, slipped overhand knot, double overhand knot, overhand loop, single hitch, half knot, half hitch, slipped half

hitch. Stopper Knots â “ figure 8 knot, figure 8 knot â “ alternate model, slipped figure 8 knot, stopper knot, sink stopper knot, Stevedore knot, heaving line knot, monkeyâ™s fist. Binding Knots â “ square knot, slipped square knot, granny knot, thief knot, surgeonâ™s knot, surgeonâ™s knot with second tuck, strangle knot, Millerâ™s knot, Packerâ™s knot. Loop Knots â “ double overhand loop, figure 8 loop, threaded figure 8 loop, directional figure 8 loop, fishermanâ™s loop, double overhand sliding loop, anglerâ™s loop, bowline, bowline with stopper, one-handed bowline, Dutch bowline, bowline with two turns, water bowline, Portuguese bowline.
